

**SECTION 725.01. RESOLUTIONS.** All traffic control resolutions in force on the effective date of this Chapter shall hereby remain in force.

**SECTION 726.01. SNOWMOBILES.**

**Subd. 1. Definitions.** The following terms as used in this Section shall have the same meaning as in Minnesota Statute § 84.81.

- A. “Snowmobile” means a self-propelled vehicle designated for travel primarily on snow or ice, steered by wheels, skis, or runners.
- B. “Operate” means to ride upon and control the operation of a snowmobile.
- C. “Operator” means every person who operates or is in actual physical control of a snowmobile.

**Subd. 2. Equipment.** It is unlawful for any person to operate a snowmobile within the City unless it is equipped with the following:

- A. Standard mufflers which are properly attached and in constant operation and which reduce the noise of operation of the motor to the minimum necessary for operation. No person shall use a muffler cut-out, bypass, straight pipe or similar device on the snowmobile motor; and the exhaust systems shall not emit or produce a sharp popping or cracking sound.
- B. Brakes adequate to control the movement of and to stop and hold the snowmobile under any conditions of operation.
- C. A safety or so called “dead man” throttle and operating conditions so that when pressure is removed from the accelerator or throttle, the motor is disengaged from the driving track.
- D. At least one clear lamp attached to the front with sufficient intensity to reveal persons and vehicles at a distance of at least 100 feet ahead during the hours of darkness and under normal atmospheric conditions. Such headlamps shall be so aimed that glaring rays are not projected into the eyes of the oncoming vehicle operator. It shall also be equipped with at least one red tail lamp having a minimum candle power of sufficient intensity to exhibit a red light plainly visible from a distance of 500 feet to the rear during the hours of darkness under normal atmospheric conditions. The head and tail lamp equipment is to be used and in good operating condition when the vehicle is operated between the hours of one-half hour after sunset to one-half hour before sunrise or at any other hours of reduced visibility.
- E. Reflective material at least 16 inches on each side forward of the handlebars so as to reflect to beam light at a 90 degree angle.
