OPTION A

Option A: One large formal lawn area with circulation routes connecting to the labyrinth, river trail, and Hwy 12 trail. Several smaller spaces created by crossing pathways. Shared patio space on the north with shade structure on the back corner. I included a trail connection to the river with an overlook, something that could be done in any of the concepts. I would envision many of the art pieces around the formal lawn walkway with an open lawn in the middle for events, etc.
