

## #15 Little Trickle

### Artist

Name: Mark Hall

Phone: [REDACTED]

Email: lamunch@aol.com

Address [REDACTED]

Website: [www.hallmarkglass.com](http://www.hallmarkglass.com)

### Personal Statement:

Mark Hall has worked professionally in art glass since 1976, learning the trade through on-the-job training and numerous key workshops. In 1982 he was hired by master glass craftsman Warren Olson, schooled in the German tradition, and focused on fabrication and installation of ecclesiastical stained glass across our country. In 1988 he followed the studio artist movement founding Hallmark Art Glass with his wife, Leslie Munchhof. This led to the creation of sculptures combining forged metal with blown, fused, or bent glass inserts beginning in the year 2000. Mark shares knowledge by conducting residencies at public schools and privately in his studio in Kasota, MN. He continues their business of creating meaningful site-specific commissions and sculptures for city sidewalk rotations.
