

Subd. J. PUD, Planned Unit Development.

1. **Purpose.** This section is established to provide comprehensive procedures and standards designed for both district and conditional use permit planned unit development to allow the development of neighborhoods or portions thereof incorporating a variety of residential types and non-residential uses. Recognizing that traditional density, bulk, setbacks, use, and subdivision regulations which may be useful in protecting the character of substantially developed areas, may not be appropriate to control development in less developed areas.

The PUD, by allowing deviation from the strict provisions of this Ordinance related to setbacks, heights, lot area, width and depths, yards, etc., by conditional use permit or a mixture of uses by rezoning to a PUD District, is intended to encourage:

- a. A development pattern in harmony with the objectives of the Comprehensive Plan.
- b. Innovations in development that address growing demands for all styles of economic expansion, greater variety in type, design, architectural standards, and siting of structures through the conservation and more efficient use of land in such developments.
- c. Higher standards of site and building design through the use of trained and experienced land planners, architects and landscape architects.
- d. The preservation and enhancement of desirable site characteristics such as environmentally sensitive areas, existing vegetation, natural topography, greenway corridors, open space, geologic features, and the prevention of soil erosion.
- e. A creative use of land and related physical development which allows a phased and orderly transition of varying land uses in close proximity to each other.
- f. More convenience in location of accessory commercial and service areas.
- g. An efficient use of land resulting in smaller networks of utilities and streets thereby lowering development costs and public investments.
- h. To give the landowner and developer reasonable assurance of ultimate approval before expending complete design monies while providing City officials with assurance that the project will retain the character envisioned at the time of occurrence.

- i. Promotion of a desirable and creative environment that might be prevented through the strict application of City zoning and subdivision regulations.

2. **PUD Types.**

- a. Conditional Use Permit. Planned unit development allows for design flexibility related to density, setbacks, building heights, lot area, lot width, etc. However, the range of uses allowed in a conditional use planned unit development is limited to those uses allowed in the base zoning district.
- b. Planned Unit Development Zoning. A mixed use planned unit development that may include land uses from a variety of zoning districts must utilize the PUD Zoning District.

3. **General Requirements and Standards for a PUD.**

- a. Ownership. An application for PUD approval shall be filed by the landowner or jointly by all landowners of the property included in a project. The application and all submissions shall be directed to the development of the property as a unified whole. In the case of multiple ownership, the approved PUD shall be binding on all owners.

Said filing with the City to be made prior to the filings of said declaration or document or floor plans with the recording officers of Wright County, Minnesota.

- f. Density. The maximum allowable density in a PUD shall be determined by reference to the Comprehensive Plan. Within that limit, the exact density allowable shall be determined by standards agreed upon between the applicant and the City. Whenever any PUD is to be developed in

stages, no such stage shall, when averaged with all previously completed stages, have a residential density that exceeds one hundred twenty-five (125) percent of the proposed residential density of the entire PUD.

- g. Utilities. In any PUD, all utilities, including telephone, electricity, gas and telecable shall be installed underground within a joint trench, whenever possible.

In assessing the landscaping plan, the City Council shall consider the natural features of the particular site, the architectural characteristics of the proposed structure(s) and the overall scheme of the PUD plan. Common landscaped open space exclusive of natural habitat areas shall be irrigated.
- k. Development Agreement. Prior to a rezoning or the issuance of a building permit as part of Planned Unit Development, the permit, applicant, builder, or developer shall execute and deliver to the City Council a development agreement. The agreement shall detail all use restrictions and required on

and off-site improvements conditional to the PUD rezoning or CUP approval. The agreement shall provide for the installation within one (1) year of the off-site and on-site improvements (exclusive of building permit) as approved by the City Council, secured by a cash escrow or letter of credit in an amount and with surety and conditions satisfactory to the City, to insure the City that such improvements will be actually constructed and installed according to specifications and plans approved by the City as expressed in such agreement.

I. Residential Planned Unit Developments, Conditional Use Permit Requirements. 3) Density Bonus. As a consequence of a planned unit development's planned and integrated character, the number of dwelling units allowed within the respective base zoning district may be increased up to twenty (20) percent based upon a finding by the City Council that such an increase is consistent with the goals of the Comprehensive Plan and achieves the PUD stated objectives

as follows. The building, parking and similar requirements for these extra units shall be observed in compliance with this Ordinance.

 - a) Recording Proof. Documents establishing the recording of any easement or other documents required by the City prior to the sale of any land or dwelling unit included in the PUD and of the establishment and activation of any entity that is to be responsible for the management and maintenance of any public or common open space or service facility.
 - b) Final Plans, Structures. Final architectural working drawings at all structures.
 - c) Final Engineering Plans. Final engineering plans and specifications for streets, drainage, utilities and other public improvements, together with a development contract providing for the installation of such improvements and

- e) Recording of Final Plan. Within sixty (60) days of its approval, the applicant, or at its election, the City, shall cause the Final Plan, or such portions thereof as are appropriate, to be recorded with the County Recorder or Registrar of Titles, at the expense of the applicant. Certified copies of all relevant recorded documents shall be furnished to the City.
- f) Building and Other Permits. Except as otherwise expressly provided herein, upon receiving notice from the Zoning Administrator that the approved Final Plan and development agreement have been recorded, all appropriate officials of the City may issue building and other permits to the applicant for development, construction and other work in the area encompassed by the approved Final Plan or intermediate Development Stage Plan provided, however, that no such permit shall be issued unless the appropriate official is first satisfied that all requirements which are applicable to the permit sought, have been satisfied.

In such case, the Council shall adopt a resolution repealing the PUD permit and PUD approvals and re-establishing the zoning and other provisions that would otherwise be applicable.

3) Schedule.

- a) Upon approval of the Development Stage Plan and within the time established by Section 51.02, Subd. J.4.i.4) of this Ordinance, the applicant shall file with the Zoning Administrator a Final Plan consisting of the information and submissions required by Section 51.02, Subd. J.4.j.2) of this Ordinance for the entire PUD or for one (1) or more stages. This application will be considered at the next possible regular Planning Commission meeting.
 - b) The findings and recommendations of the Planning Commission shall be forwarded to the City Council for consideration. If the Planning Commission fails to act within the time specified herein, it shall be deemed to have recommended the plan for approval.
 - c) Within sixty (60) days of receipt of a complete PUD final plan application, unless the review period is extended in accordance with Minnesota Statutes 15.99, and receipt of the findings and recommendations of the Planning Commission, the City Council shall grant approval or denial of said request.
 - d) The applicant shall cause the Final Plan, or such portions thereof as are appropriate, to be recorded with the Wright County Registrar of Deeds of Register of Titles. The applicant shall provide the City with a signed copy verifying County recording within forty (40) days of the date of approval.
- 4) Building and Other Permits. Except as otherwise expressly provided herein, upon receiving notice from the Zoning Administrator that the approved Final Plan has been recorded and upon application of the applicant pursuant to the applicant ordinances of the City, all appropriate officials of the City may issue building and other permits to the applicant for development, construction and other work in the area encompassed by the approved Final Plan provided, however, that no such permit shall be issued unless the appropriate official is first satisfied that the requirements of all codes and ordinances in which are applicable to the permit sought, have been satisfied.
- 5) Limitation on Final Plan Approval. Within one (1) year after the approval of a Final Plan for PUD, or such shorter time as may be established by the approved development schedule, construction shall commence in accordance with such approved plan. Failure to commence construction within such period shall, unless an

extension shall have been granted and hereinafter provided, automatically render void the PUD permit and all approvals of the PUD plan and the area encompassed within the PUD shall thereafter be subject to those provisions of the Zoning Ordinance, and other ordinances, applicable in the district in which it is located. In such case, the City Council shall forthwith adopt an ordinance repealing the PUD permit and all PUD approvals and re-establishing the zoning and other ordinance provisions that would otherwise be applicable. The time limit established by this section may, at the discretion of the City Council, be extended for not more than one (1) year by ordinance or resolution duly adopted.

6) Inspections During Development.

- a) Compliance with Overall Plan. Following Final Plan approval of a PUD, or a stage thereof, the Zoning Administrator shall, at least annually until the completion of development, review all permits issued and construction undertaken and compare actual development and within the approved development schedule.
- b) If the Zoning Administrator finds that development is not proceeding in accordance with the approved schedule, or that it fails in any other respect to comply with the PUD plans as finally approved, he shall immediately notify the City Council. Within thirty (30) days of such notice, the City Council shall either by ordinance revoke the PUD permit, and the land shall thereafter be governed by the regulations applicable in the district in which it is located; or shall take such steps as it deems necessary to compel compliance with the Final Plans as approved; or shall require the landowner or applicant to seek an amendment of the Final Plan.
